## FOREWORD

---

Of the legal challenges of the 21st century, the most transpires within the triangle of law – society – digitalization. In the constant evolution of societal relations and behavior against the backdrop of digitalization, legal teaching and practice ought to remain responsive and dynamic. This is true for the whole spectrum of private law, from the most archaic sub-disciplines all the way to the newly emerging ones.

Centering around this focal observation, the symposium on *Challenges and Opportunities for the Private Law in the 21st Century* organized in collaboration of Ankara Yıldırım Beyazıt University Faculty of Law and Károli Gáspár University of the Reformed Church provided a prolific medium for a multifaceted legal discussion in the private law realm. Having been held on June 15-16, 2023 the event brought together a wide number of scholars of Hungary and Türkiye from different sub-disciplines of private law.

It is my great pleasure to disclose the collection of the valuable outcomes of the symposium in this book to contribute to the scholarly discourse in various civil law disciplines. On this note, I would like to extend my genuine gratitude to the scientific and organizing committees as well as academic staff from Ankara Yıldırım Beyazıt University and Károli Gáspár University of the Reformed Church in Hungary for generously laboring into making this event possible. Special thanks are due to Assistant Professors Dr. Ekin Deniz UZUN, Dr. Muhammed Said BİLAL, and Dr. Osman Buğra BEYDOĞAN for their editorial contributions, which played a significant role in shaping this book
